Dear Hospital Administrator:

As an active participant hospital in the Michigan Society of Thoracic and Cardiovascular Surgeons (MSTCVS) Quality Collaborative, a BCBSM supported CQI, your hospital has contributed to significant advances in the care and outcomes of cardiac and thoracic surgery patients in Michigan.

Understanding that improvements in quality, safety, and outcomes require collaboration between clinicians and hospital leaders, we are creating a unique meeting opportunity that will be valuable to you and provide insights into your organization.

The MSTCVS Quality Collaborative will be offering a special session during the MSTCVS Annual meeting in Traverse City on July 29th from 1-4 pm. This session will be focused on our quarterly and yearly clinical process and outcomes review and blend in operation specific payment data from all our hospitals utilizing the information from the Michigan Value Collaborative (MVC) another BCBSM CQI.

We would like you to join your hospital's MSTCVS Cardiac and Thoracic Surgeon Champions, and attend this special session to discuss innovative ways to encourage and improve outcomes and collaboration for the care of cardiac and thoracic surgery patients in Michigan.

Please return this form by July 1, 2017 to let us know if you or a member of your staff will be able to join us.

We hope to see you in Traverse City!

Sincerely,

Richard L. Prager
MSTCVS Project Director

I will be attending the meeting (please circle): Yes No
