

2021 Value-Based Reimbursement *General Thoracic Surgery*

	Measure Description	Statewide Baseline Performance Mean January-June 2020	Statewide Target Performance Mean January-September 2021
1	Invasive mediastinal staging for patients undergoing lung cancer resection. <i>(T2N0 or greater, lobectomy, segmentectomy and pneumonectomy)</i>	55%	65%
2	5 or more lymph node stations sampled at the time of lung cancer resection <i>(Lobectomy, segmentectomy and pneumonectomy)</i>	76%	80%

This is a collaborative-wide measure. The statewide target must be achieved in one of the two measures to receive reimbursement.
