

2022 Value Based Reimbursement: *Simulation Training: Cardiopulmonary Bypass Oxygenator Failure- Evaluation of the Simulation Experience*

To be completed by each simulation participant regarding the simulation experience:

<i>Please check the corresponding box to the evaluation statements</i>	1- Strongly Disagree	2-Disagree	3-Neutral	4-Agree	5- Strongly Agree
1. Objectives for the simulation were clearly prior to training					
2. I believe that simulation training was well organized					
3. I believe simulation training provided an effective learning environment					
4. I believe that simulation training is a critical learning experience					
5. I believe that simulation training will help me feel less stressed in a critical situation					
6. I was appropriately oriented to the simulator environment prior to event					
7. Do you feel your technique improved using simulation					

8. Overall, what grade would you give yourself for your performance in your simulation experience?

(0-100%) _____

9. Any additional feedback or comments: _____
