

TAVR POCMA:

STS Record ID # _____ Surgeon _____ DOS ___/___/___ DOD ___/___/___ Age: _____ STS Risk Score: _____

Procedures (1) _____ (2) _____ Urgent conversion to open Yes No

Incremental Risk (Circle): Home O2, OSA, nocturnal BiPap, Liver disease, Anemia, hostile mediastinum, porcelain aorta, mobility impairment

CASE SUMMARY:

PHASE OF CARE MORTALITY ANALYSIS (POCMA): Please select one Phase (Pre-op, Intra-op, etc.) and circle one subcategory (Judgment or Patient Preparation etc.)

Pre-Operative Phase	Intra-Operative Phase	Post-Op ICU Phase	Post-Op Floor Phase	Discharge Phase
Cardiac risk factor profile Cardiogenic shock Myocardial viability Non-cardiac risk factor profile RF on HD COPD Cirrhosis Combination Judgment Timing of surgery Risk > benefit Patient preparation Optimize functional status Patient evaluation Functional class ID occult disease(s) Other: _____	Anesthesia Technical (lines, TEE, ET) Pharmacologic management Recognition/tx of decompensation. Judgement Surgeon Technical (deployment) Judgment Catastrophic event (specify): Perivalvular leak CVA Aortic Dissection Perforation/rupture/laceration DIC/Shock Severe MR Tamponade AMI Vascular/bleeding complication Conduction disturbance Other: _____	Hemodynamic management Inotrope titration Adequate O ² delivery Respiratory care Prevent lung injury and VAP Appropriate support plan ICU care (Keystone criteria) Infection/Sepsis DVT/PE prophylaxis Multi-System Organ Failure Failure to Thrive Surveillance/Recognition/Rx of decompensation Catastrophic event (specify): Aspiration CVA Pulmonary embolism GI Ischemia Vascular/bleeding complication Lower extremity ischemia Thrombosis AMI Conduction disturbance: Other: _____	Pharmacologic management Coumadin Other Dysrhythmia(atrial/ventricular) Infection/Sepsis Surveillance/Recognition/Rx of decompensation Multi-System Organ Failure Catastrophic event (specify): CVA Pulmonary embolism AMI _____	Appropriate disposition Pharmacologic details Adequate instruction and safety network Catastrophic event Found unresponsive cause of death unknown Readmission: _____ Other: (specify): _____

Seminal Event and Mortality Avoidable? Yes No How? _____
